

THE LADDER PROTECTOR

THE LADDER PROTECTOR

THE PROBLEM

THE LADDERPROTECTOR IS AN ANTI-SLIP DEVICE DESIGNED TO PREVENT THE BASE OF THE LADDER FROM SLIPPING AWAY

THE LADDERPROTECTOR

- a) complies to and exceeds the Australian Standard AS 1892.1
- b) has been tested by an acknowledged independent test facility
- c) has been examined by WorkSafe

THE ANSWER

- ↘ Safe, more reliable than footing
- ↘ Cost efficient, ideal for solo use
- ↘ Makes restraining a ladder safe and easy
- ↘ Works on multiple surfaces
- ↘ Reduces long ladder set-up times
- ↘ Protects underground
- ↘ Simple, flexible & reliable performer
- ↘ Easy to carry around
- ↘ Two years warranty

“Non-slip surface”
